

Bringing the Unchanging Word of God to a Changing World

## Statement from Issachar Ministries Trustees: Covid-19 and the ‘vaccines’<sup>†</sup>

The role of an Issachar people has always been to be watchmen who understand the times and alert people to what is going on so that they can better decide what they ought to do. This includes reassessing advice and guidance previously given to see whether it still stands in the light of new evidence becoming available. We believe this is particularly the case regarding Covid-19 and the vaccines. When we were first alerted to a novel Coronavirus early in 2020, we were warned by international health and governmental organisations that the spread of the disease would lead to deaths comparable in magnitude to those experienced during a plague. This has since proved to be false.

Given the unprecedented fear campaign and coercion, it is understandable that when the jabs were first announced, many sincere and believing Christians received them as a gift from the God who made us in His image, loves us and provides for our well-being. Almost two years later, the huge amount of new evidence that has become available to us makes such a position untenable. In particular, we know that the number of deaths or serious injuries leading to lasting damage from the Covid-19 virus is nowhere near as great as feared or predicted. Without diminishing the suffering of some, for the vast majority the disease presented only mild flu-like symptoms, and is virtually non-existent in children.

It is well known that these novel viral vector and mRNA jabs have not prevented transmission, nor stopped people from being infected with Covid, but rather have themselves been the cause of utterly unacceptable numbers of deaths, life-changing injuries, unexplained debilitating conditions and a huge volume of adverse reactions. This therefore raises the question about whether official statements concerning the safety and efficacy of these newly developed experimental ‘emergency use’ products were accurate.

Each time one takes any medical intervention, the decision to do so must be down to that individual. Age, medical risk versus benefit and evidence enabling ‘full and informed consent’ are some of the factors that influence this decision. We are also free to stop taking an intervention or to decline the offer. Bodily autonomy, the freedom to choose what goes into our bodies is an important and well-established human right. Sadly, amongst the Christian community there was great division on this subject, even *within families*. People lost friends, their jobs, and were vilified and ostracised for refusing the jab and choosing to rely on their God-given immune systems.

Let us pray for those who continue to suffer as a result of Covid-19 or the vaccine injuries, and especially those who are struggling with a sense of having been deceived. Let us ask for forgiveness for those times when we have allowed fear to drive us and not cast our cares on the Lord; Let us pray for healing of relationships so that we truly love one another as the Father has loved us; Let us pray for the Spirit of Discernment, Wisdom, Revelation and Understanding for the times we are in. Lord, thank you for your grace, please have mercy on us all.

Regrettably, we believe the conventional relationship of trust and respect between government and the people has been sacrificed to a campaign which has elevated compliance over conscience, silenced debate, and, by the use of behavioural science and ‘nudge theory’, used fear as a tool to achieve its objectives.

Armed with the uncomfortable realisation that being coerced into receiving a Covid-19 jab was just the first of many trials we may face in the months and years ahead, we must expect the weaponising of fear to

<sup>†</sup> Experimental messenger RNA (mRNA) products which do not meet the traditional definition of a vaccine.

continue undiminished. Let us be vigilant and alert, so that we are better prepared each time another deception rears its ugly head.

Whatever decision we chose to make on this issue, our Lord clearly warned us that there would be great deception in the last days. Let us seek to be led by the Holy Spirit and live out our faith each day. The Bible gives us good instructions on how to deal with fear and we know that “Perfect love casts out fear”. (1 John 4:18.)

Our task is to share the good news of the Lord Jesus, and all that He has done for us, that His Kingdom of perfect peace, justice and righteousness is near, and that for all who love Him “...nothing can separate us from the love of God that is in Christ Jesus our Lord” (Romans 8:39).

### **The Lord is coming soon. Maranatha.**
